

# Happy Hour Set Up

Go to All Set Up:

Then Happy Hour Set UP:

<b>Store &amp; Station Set Up</b>	<b>Restaurant Set Up</b>
<b>Menu Set Up</b>	<b>Employee Set Up</b>
<b>Floor &amp; Table Set Up</b>	<b>Hotel / Apartment Set Up</b>
<b>Street &amp; Address Management</b>	<b>Advanced Set Up</b>
<b>Restaurant Hours Set Up</b>	<b>Happy Hours Set Up</b>
<b>Account Management</b>	<b>Close</b>

**Supermenu Set Up**

**Restaurant Set Up** allows you to set the restaurant name, address, phone, tax rate, delivery charge, hours, credit card, descriptions, etc.

**Employee Set Up** lets you set up Employees as Owners, Managers, Hosts, Waiters, Drivers, Cashiers, etc. You can also make schedules and set hourly rates. Each employee will have a PIN number or employee card for authentication.

**Street Set Up** allows you to set up streets, map codes based on zip codes, which can be used for quick look up on the customer screen for deliveries.

**Floor/Table set up** lets you set up unlimited sections and tables with different names, shapes and sizes.

**Hotel/APT set up** lets you create predefined addresses for Hotels, Apartments, Dorms, etc to reduce data entry for delivery orders.

**Printer set up** is for all the printers and printing setting, plus other hardware such as cashdrawer, pole display, and caller IDs, etc.

**Change PIN** is for changing the PIN for the Super User, who can do anything.

**SUPERMENU**  
Restaurant POS & QSR Systems

Check the Enable Special Hours 1, then enter the start hours, minutes and end hours and minutes like below: (hours in 24 format)

**Restaurant Special Hours** [X]

Enable Special Hours 1
  Enable Special Hours 2
  Enable Special Hours 3

Day of Week	Start Hour	Start Minute	End Hour	End Minute	Start Hour 2	Start Minute 2	End Hour 2	End Minute 2	Start Hour 3	Start Minute 3	End Hour 3	End Minute 3
Mon	17	30	22	30								
Tue	17	0	22	0								
Wed	17	0	22	0								
Thu	17	0	22	0								
Fri	18	0	23	0								
Sat	17	0	23	0								
Sun	17	0	22	0								

Click on Save.

Then go to Menu Set Up, menu Category set up:

Supermenu POS Menu & Modifier Set-Up	
<b>Menu Category Set-Up</b>	<b>Modifier Set-Up</b>
<b>Ingredient Set-Up</b>	<b>Import Menu from Excel File</b>
<b>Update Menu from Excel File</b>	<b>Import Modifiers from Excel File</b>
<b>Export Modifiers</b>	<b>Export Menu</b>
<b>Export Menu to Excel file</b>	<b>Export Menu to Excel file as Retail</b>
<b>Export Modifiers to Excel file</b>	<b>Import Menu</b>
<b>Import Modifier</b>	<b>Translation Set Up</b>
<b>Upload Menu to Website</b>	<b>Upload History</b>
<b>Multi-Menu Set-Up</b>	<b>Close</b>

## Menu Set Up

You can set up menu categories, modifiers and items manually or import menus and modifiers from prepopulated Excel spreadsheets, which is much faster.

You can create multiple menus, such as Dine-In Menu & Carry-Out Menus, and associate the categories to different menus by click on Menu Category Set-Up button. Each food category can be associated with multiple menus. You can switch menus during the ordering process.

You can export the menu to an external drive as back up and import it back if needed.

After the menu categories and modifiers are created or loaded, you can then associate modifiers with categories or items.

You can also upload the menus to your online ordering website. You POS menus can be synchronized with online menus by a single click.
