Supermenu Set Up

Restaurant Set Up allows you to set the restaurant name, address, phone, tax rate, delivery charge, hours, credit card, descriptions, etc.

Employee Set Up lets you set up Employees as Owners, Managers, Hosts, Waiters, Drivers, Cashiers, etc. You can also make schedules and set hourly rates. Each employee will have a PIN number or employee card for authentication.

Street Set Up allows you to set up streets, map codes based on zip codes, which can be used for quick look up on the customer screen for deliveries.

Floor/Table set up lets you set up unlimited sections and tables with different names, shapes and sizes.

Hotel/APT set up lets you create predefined addresses for Hotels, Apartments, Dorms, etc to reduce data entry for delivery orders.

Printer set up is for all the printers and printing setting, plus other hardware such as cashdrawer, pole display, and caller IDs, etc.

Change PIN is for changing the PIN for the Super User, who can do anything.
